Haringey User Network

Positioning Haringey's mental health service users at the heart of decision making.

We can offer:

- Useful information
- Advice
- Training opportunities
- Online Mental Health Forum
- Opportunities to meet other services users

Our main objectives:

- Peer advocacy (training provided)
- To provide easy access to information, advice, training opportunities
- To provide a training programme to develop individual skills, knowledge and confidence of services users.
- To support service users' involvement in the community and facilitate links between individuals and other groups and organisations

- To support service users to raise awareness of issues in the community
- To develop Mental Health User Forums
- To develop an online Mental Health Forum
- To provide opportunities for volunteering
- To build international links with service user groups in other parts of the world
- To provide opportunities for job share
- To promote user group involvement at strategic levels of service developments.
- Advice and information
- Building networks between services

Haringey User Network is hosted by PRA Services, a charitable organisation established in 1958, which is enabling people with enduring mental health problems to have a meaningful life in the community. PRA provides a range of community services, focusing on preventative work to enable people with minimal resources to receive support with unmanageable stress before it becomes a crisis.
